ABOUT ME

I'm Jade, a multi-media designer and recent Interactive Media Arts graduate from NYU.

I am passionate about solving design problems across media and am experienced in digital marketing, game, and web design. I thrive in a collaborative environment and am always eager to learn new skills.

Some of my hobbies include puzzles, reading graphic novels, and going to concerts!

UI DESIGN

RUSH HOUR ANXIETY

Rush Hour Anxiety is a web game that puts players in the stressful shoes of an NYU student riding the subway.

Key design elements include graphic fonts, bold colors, and incorporation of MTA iconography. Through user testing, in-depth research of the MTA's style, and reflections on our own experiences, my team and I were able to design a user-friendly interface that reflects the game's individual style and familiar environment.

Created for HackNYU's 2023 Mini Hackathon, **won 1st** in the Gaming category.

MY TASKS

Game UI (Design & Implementation)

Background Artist Colorist

PROGRAMS USED

Illustrator

Procreate

Unity

RESEARCH

I started with identifying the MTA's **recognizable visual motifs** such as their use of Helvetica type, contrasting colors, and stylized illustration.

References

INDIVIDUAL STYLE

We chose to pair a graffiti-inspired, airbrushed art style with cheeky, referential graphics to reflect the **silly, youthful, and familiar** nature of the gameplay.

Graphics

Art

PROBLEM

Players don't realize looking at enemies is a combat move, because they would **stay on the main quiz screen** rather than looking around.

HYPOTHESIS

Something on the main screen needs to **prompt players** to look around. Otherwise, they become focused on the quiz and forget.

SOLUTION

Add **constant on-screen UI** showing:

1. Which screen the player is on
2. Which screen enemies are on
3. Which combat is effective

RESULTS

Players look around more at the beginning of the game. But, they still remain on the quiz screen as the game gets harder.

In the future, I would like to show the combat's effect through a health/ status bar.

ICONS

Default

1. Direction

2. Enemy

3. Combat

SCREENS

WHAT A SHAME!

Taking into account Hyejin's 90's R&B inspirations and the tracklist's cinematic theme, I developed an authentic, coherent visual identity for her debut EP. **Key design elements** incorporate the futuristic design motifs of 90's/early 2000's pop culture and the dramatic typography of vintage film cards.

I visually reflected the EP's sound and story through **multiple promotional projects** such as merchandise, social media, and video.

MY TASKS

Product Design & Development
Video & Photo Editing
E-Commerce Management

PROGRAMS USED

Illustrator
Procreate
Premiere Pro
Shopify

TASK

I led the **creative direction** for the EP's promotional rollout.

I aimed to convey the EP's melancholic, introspective, yet fun and poppy tone through creating style guides and key graphic assets.

INSPIRATION

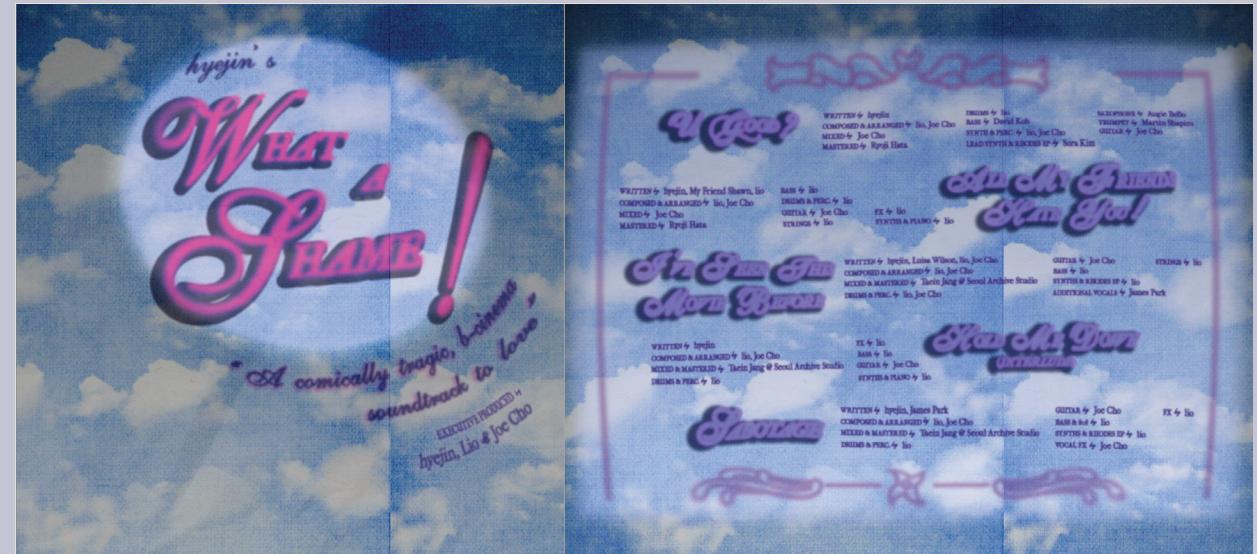

After speaking with Hyejin, I learned about her love for early 2000's R&B/Soul artists like Amy Winehouse and Norah Jones. We decided to combine Y2K and vintage aesthetics to reflect **Hyejin's current sound and her nostalgic influences.**

DIRECTION

Final graphics heavily reference **early film title cards** through the use of loopy fonts, decorative borders, and whimsical graphics.

Illustrations takes heavy inspiration from **Y2K cyber culture**'s chunky fonts, metallic textures, and organic shapes.

SPOTIFY: RIBBON

With the slogan "Your Spotify Wrapped With A Bow",

Spotify: Ribbon is a website displaying visual-focused infographics of users' Spotify listening data. Combining my passions for music, color design, and coding, this project has been a rewarding lesson in problem-solving and served as my final project for Introduction to Web Design.

Using the **Spotify API**, I developed functions that designate colors and fonts based on genre and cover art. The **overall design** mirrors Spotify's brand design through bold, minimalistic combinations of shapes and colors.

MY TASKS

Web Development & Design
API Integration

PROGRAMS USED

HTML/CSS
Javascript
Illustrator
Figma
Cyberduck

RESEARCH

I looked at **other Spotify data sites** for inspiration on organizing the Spotify API data points. I compared and contrasted these sites with Spotify Wrapped, noting differences in user-friendliness and layout.

WIREFRAMES

For the Figma prototype, I created a **unique but familiar visual identity** by keeping Spotify Wrapped's minimal aesthetic and card layout while adding unique design elements and colorways.

The wireframes show a main dashboard with a central Spotify logo and a "ribbon" graphic. Below the ribbon are three cards: "top artists" (red), "top tracks" (purple), and "top genres" (pink). Each card has a list of items and a "Login with Spotify" button. The "top artists" card lists: red velvet, amarae, amy winehouse, rihanna, rosalia. The "top tracks" card lists: 1. Angels in Tibet, 2. Underwater, 3. True Romance, 4. Want Some More, 5. 2Night. The "top genres" card lists: POP | R&B | DANCEROP URBAN CONTEMPORARY | R&B. At the bottom, there are three more cards: "rosalia" (orange), "Angels in Tibet Amaarae" (dark blue), and "Your Top Pop Artists" (purple). Each card has a "1" in a circle in the top right corner.

My Dev Envrioment

The screenshot shows a mobile application interface. At the top, there are two sections: 'TIME' with options 'Last Month', 'Last 6 Months', and 'All Time'; and 'CATEGORY' with options 'Artists', 'Tracks', and 'Genres'. Below these, the main content area has a pink header with the text 'top artists Last Month'. The main body displays three artist names in large, bold, white font boxes: 'hailey knox', 'doja cat', and 'kaytranada'. In the bottom right corner, there is a small browser-like window showing the source code of a file named 'index.html'.

```
<!DOCTYPE html>
<html>
  <head></head>
  <body style="background-color: #f0f0f0;">
    <h1>top artists</h1>
    <h2>Last Month</h2>
    <ul>
      <li>hailey knox</li>
      <li>doja cat</li>
      <li>kaytranada</li>
    </ul>
  </body>
</html>
```

COLOR DESIGN

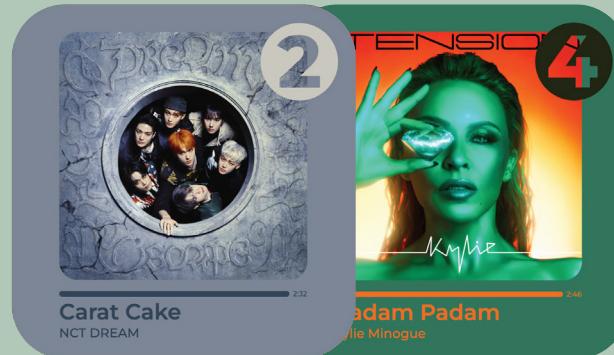

1. I assigned each genre a **color** based on genre-centric Spotify playlists and personal taste.
 2. For **genre and artist** cards, an algorithm identifies a track's genre, corresponding color, and 1-3 complementary colors.
 3. For **track** cards, an eyedroper algorithm gets 3 contrasting colors from the track's cover art. Previously, I tried (and failed) to get the genre of the tracks' artist.

Genre Colors

A bubble chart illustrating the popularity of various music genres. The genres and their approximate popularity scores are:

- alt (~15)
- country (~25)
- indie (~20)
- electro (~30)
- power (~35)
- pop (~40)

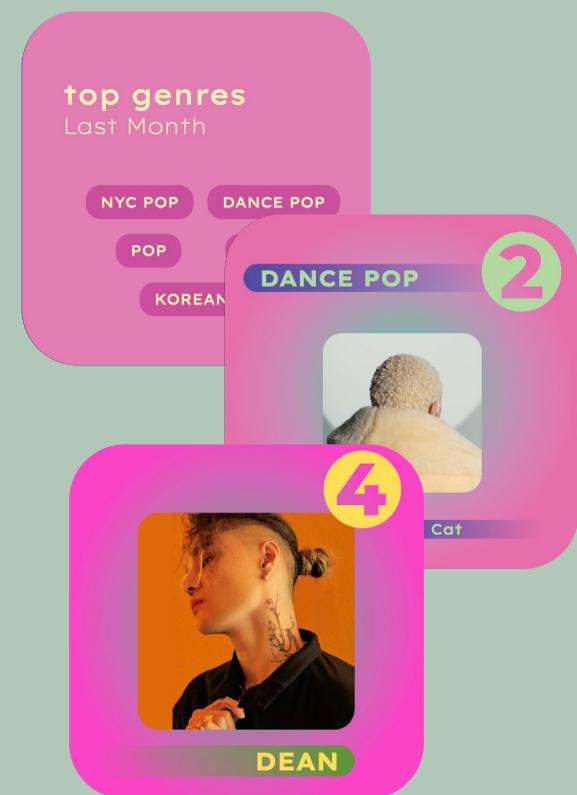

Track Cards

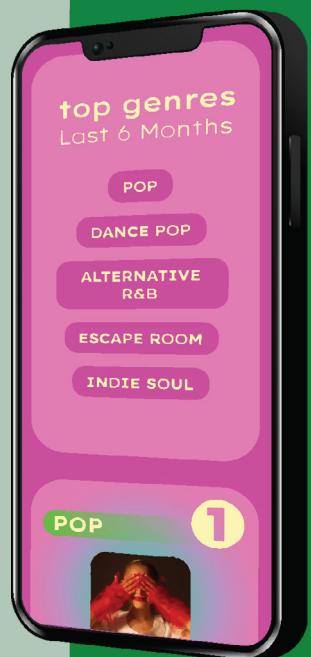

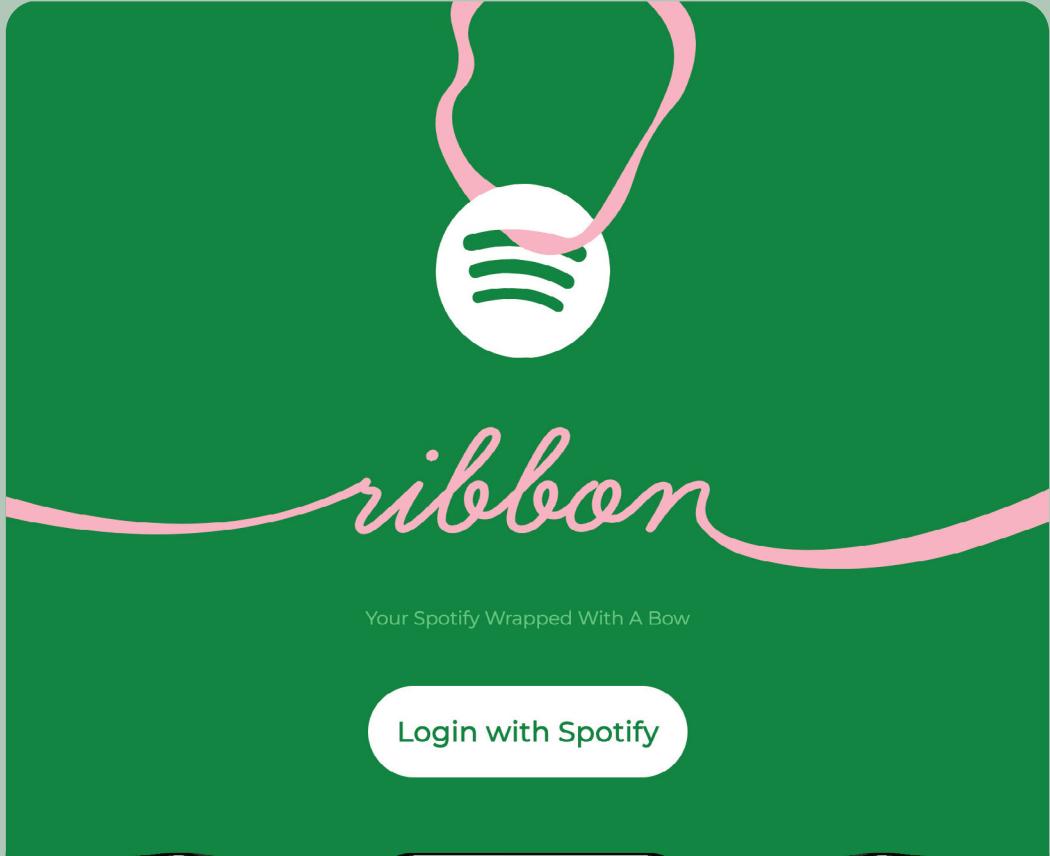

DEVELOPMENT

This project had a lot of firsts for me, from integrating the Spotify API to creating a card system. The final site is a result of several tutorials, articles, and forums. My **baseline goal** was for each data point/card to visually reflect itself through color, type, and layout.

Genre & Artist Cards

FINAL FEATURES

1. Successful integration and organization of API data
2. Customized graphics using user's Spotify listening history, including genre-specific fonts and color palettes.
3. Smooth fade-in and fade-out transitions

FUTURE

Going forward, I would love to **continue experimenting** with API's and data visualization.

If I were to continue this project, some of my next steps would be:

- Get quota extension
- Card carousel
- Improve style/color diversity & legibility
- Shareable/downloadable assets

Winter Show

2023

Poster submission for NYU's IMA,
ITP, & Low-Res 2023 Winter Show.

The poster features a yellow background with a black rounded rectangle containing three sets of cartoon characters. Each set consists of a woman and a man. In the first set, labeled 'Bad.', they are both looking at their phones. In the second set, labeled 'Better.', they are looking towards each other. In the third set, labeled 'Best.', they are smiling and looking at each other. A QR code is on the left, and the text 'Be Better. Play Rush Hour Anxiety.' and the URL 'https://derin-ogut.itch.io/rush-hour-anxiety' are on the right. The RHA logo is in the bottom right corner.

Bad.

Better.

Best.

Be Better. Play Rush Hour Anxiety.
